### Biography:

Dr. Hilary Gomes is a pediatric neuropsychologist with clinical and research expertise in assessing a wide variety of clinical conditions, including dyslexia and other learning disabilities, language impairment, Aspergers and autism spectrum disorders, and attention deficit/hyperactivity disorder (ADHD). She has experience working with individuals, ranging from preschoolers to young adults. She received her Ph.D. at the Graduate Center of the City University of New York and completed a National Institutes of Health postdoctoral fellowship in pediatric research at the Albert Einstein College of Medicine. She is an Associate Professor of Psychology at the City College of New York, and has taught neuropsychological assessment of children and adults at the graduate level for over 10 years. Her research has been funded by the National Institutes of Health and the Autism Speaks Foundation.
