Biography:

Dr. Jayme Neiman-Kimel is a board certified pediatric neuropsychologist and leading specialist in neuropsychological assessment for children and young adults. Over the last 20 years, Dr. Neiman-Kimel has built a practice that has provided service to hundreds of clients, schools and expert witness testimony. Dr. Neiman-Kimel also maintains a private clinical practice providing therapy to adolescents, adults, and couples.

Dr. Neiman-Kimel serves as a consultant and expert witness in forensic settings. Dr. Kimel's forensic and expert testimony has included comprehensive and neuropsychological assessment, analysis, and treatment planning.

Dr. Neiman-Kimel's practice focuses on providing developmental, behavioral, and cognitive assessments. Dr. Neiman-Kimel's approach is to develop a fully integrated plan incorporating leading specialists in the field to provide a comprehensive approach to clearly understanding and supporting the developmental and cognitive needs of the child.

Dr. Neiman-Kimel is a Board Certified Pediatric Neuropsychologist and has been licensed in the state of California since 1992. In 2000, Dr. Neiman-Kimel earned her post-doctoral degree in Clinical Neuropsychology with an emphasis in pediatrics. She received her doctoral degree in Clinical Psychology and Behavioral Medicine in 1989. .

Professional memberships include National Academy of Neuropsychology, American Psychological Association, California Psychological Association, and Los Angeles Psychological Association. Dr. Kimel can be reached at 310-209-4994.
