 Neuropsychology (2120)

Biography:

I currently operate a private practice in East Central Alberta and West Central Saskatchewan. Initially trained as an Educational Psychologist I have focused on neuropsychological assessment since completing the Postdoctoral Program at Fielding Graduate University under the supervision of Dr. Arnold Purisch. In addition to doing assessment work for four school divisions and two colleges I also participate on two separate Saskatchewan based multidisciplinary teams which diagnose ASD and FASD. I also do adult vocational assessment and parenting capacity assessment on a regular basis.

I am honored to have been a member of AAPdN since 2014 and thus far have yet to miss the opportunity to attend the annual convention.
