Dr. Nicholls is a Clinical Neuropsychologist with 40 years of experience in working with both children and adults. He is currently in private practice in Scottsdale, Arizona, where he focuses upon the evaluation and treatment of neurodevelopmental disorders including learning disabilities, attention-deficit/hyperactivity disorders, autism spectrum disorders, intellectual giftedness and disorders, and other conditions that involve the developing brain. Dr. Nicholls has served on the clinical faculties of several major university and hospital training programs in psychology, pediatrics, surgery and other health specialties. He was awarded the 2005 Distinguished Service Award by the Arizona Psychological Association, was co-founder and President of the Arizona Neuropsychology Society in 2009, served as President of the Arizona Psychological Association in 2010, and was awarded the Aaron H. Canter award for Distinguished Contributions to Professional Psychology in 2013. In 2016 he was elected as a Fellow of the National Academy of Neuropsychology. He served as the Arizona delegate to the Council of Representatives of the American Psychological Association, between 2016 and 2018. He has a long history of community service, has presented at local, national and international conferences, has publications in various professional journals and has authored two books, the most recent of which is titled *Neurodevelopmental Disorders in Children and Adolescents*.
